June 6th, 2023

Dear Valued Customer,

Milescraft is focused on being environmentally conscious. There are many ways that our choices and processes can impact the environment. As an example, we are continuously reviewing our product packaging materials to try to eliminate waste and excess whenever possible.

As a result, we are shifting several of our finished goods from clamshells to recyclable cardboard cartons. We want to ensure that our partners are aware of this transition, which will happen over the next few months, starting with our 1318 DrillMate. Other key product categories will be Safety, Door Installation and SawGuide products.

The initial items impacted are listed below:

- 1318 DrillMate
- 1368 DrillMate (EU)
- 1213 HingeMate300
- 1214 HingeMate200
- 1220 HingeMate350
- 3404 PushStick
- 3405 GrabberPLUS

The product updates will not impact your cost and will help to reduce packaging damage and waste once implemented.

We thank you for all you have done to help grow the Milescraft business and we look forward to continued success in 2023!

Best Regards,
The Milescraft Team
